QIA Internship

As part of Building for One Europe QIA Initiative

As part of QIA efforts to expand its activities to enable a European Quantum Internet ecosystem, we are launching the first Call for Internships.

If you are a master student, a PhD candidate, a postdoc or a young professional studying or working at a university, research institution or a company in one of the eligible countries*, you may be qualified to apply to QIA Internship opportunities.

Under this program, QIA will support your internship with a maximum of 5,000 EUR to cover for travel and accommodation expenses.
